

Public Health Campaigns

We really want to hear from people about recent Public Health Campaigns

Healthwatch Worcestershire find out what people think about health and social care services. We use this information to tell those who run the services how they can be improved.

Recently the County Council has been promoting information about:

Worcestershire Health Walks, National Walking Month

WOO - Text 855258 to access mental health support

We are interested to find out how effective these campaigns have been, and who has seen this information

Please complete our survey

The Surveys can be completed online here:
